

ACTIVITY NAME: CHANGE YOUR PERSPECTIVE

ACTIVITY DURATION: 20'

The participants form groups of three: one plays the parent, one is the child, the third is the teacher.

The facilitator asks them to imagine the following situation:

The child goes home in the afternoon. The parent is waiting for the child and is very angry, because the teacher called to say that the child did not go to school that day.

The participants are asked to act out this situation. Each character can say and ask whatever they think.

In the next round, the parent becomes the child, the teacher becomes the parent, the child becomes the teacher. They act out the same situation, asking and saying whatever they think (it can be a completely new story with new explanations.)

Who did the change of perspective change your feelings, acts, explanations? The groups share their experience with everybody.
